The Foreign Corrupt Practices Act—its implications to financial management Beresford & Bond—August 26

### FINANCIAL EXECUTIVE

Nine tips on corporate finance for the 80's—Allen—January 18

**Who is in command of your data processing resources?**

If you are an OS or OS/VS 370-303X user who has too long faced the limitations of SMF while trying to control the resources of your system, it's time to check into KOMAND. KOMAND is a job accounting and billing system that uses, as only a part of its data base, enhanced SMF data. This feature alone would justify serious inquiry into KOMAND, but KOMAND goes further. After over 8 years of development and several hundred systems installed, KOMAND is able to provide completeness and SMF data protection (e.g. true direct access accounting and control, SMF recovery, account code validation, JCL error accounting). Besides its vast range of reporting, KOMAND is of modular design and thus may be applied to your precise requirements at the lowest possible cost. And once a package has been selected for your system (single or multi-mainframe) the flexibility of the sub-systems allows further adjustment to your precise reporting needs.

**Send for a free job accounting evaluator**

This generalized requirements checklist, developed from PACE's 8 years experience with job accounting users, will put your needs in focus.

KOMAND OS/VS Job Accounting and Billing System

Tax Highlights—February 54, May 54, August 52, November 58

**How much change does our American Economic System need: A lot? A little? None?**

The more we all know about our system and how it works, the better we can decide what to preserve, what to change in the years ahead. That's why this special booklet has been prepared. Every American ought to know what it says. For a free copy, write: "Booklets", P.O. Box 1887, New York, N.Y. 10001.

**The American Economic System.**

**Your Business can be one too.**

Red Cross needs individual volunteers, and donors of blood and money, by the millions.

But we need even more help. We need the solid support of American Business. And we never needed it more.

If your business is already helping, by organizing blood drives, and by supporting payroll deductions—either directly for the Red Cross, or through the local combined fund drive—the whole community owes you thanks. And we thank you, too.

Last year, with help from our friends, we offered major aid at over 30,000 disasters—from typhoons, to local (but just as devastating) house fires.

We were able to help the elderly with practical programs, we helped veterans by the hundreds of thousands, we taught people by the millions to swim or swim better. And that's just the tip of the iceberg.

Think of America without The American Red Cross.

And you'll know why we need your business as a Red Cross Volunteer. In your community. And all across America. Contact your local Red Cross Chapter to see how your company can become a volunteer.
